

20th March 2020

Dear Parents and Guardians,

As I am sure you have seen from our communication so far, our entire focus this week has been to support your children in dealing with this unprecedented event. We have worked hard to ensure that both staff and pupils are prepared and ready to continue their education and pastoral care either remotely, or at school as children of key workers or boarders unable to get home.

I am writing today to reassure you that we are also mindful of the potential impact this might be having on personal finances. We understand that you may have questions regarding the issue of school fees. I would ask that you bear with us whilst we await further clarification from the government regarding contingency plans for exam students, the support package being offered for independent schools and an indication as to the length of school closures. Once this crucial information has been communicated we will be in a better position to clarify on the matter of fees going forward. We plan to provide an update regarding this by the end of term.

Thank you for your support and understanding in these challenging times.
